

COUNTY YOUTH IS GIVEN YEAR IN YORK PRISON

John W. Young, Jr., East Berlin, formerly of Hanover, convicted on October 23 of a charge of involuntary manslaughter, was sentenced by Judge Walter I. Anderson in the York county court Monday to serve one year in jail and to pay a fine of \$500 and costs. Sentence was imposed after presentation of the written statements of three doctors that incarceration would endanger Young's life.

The judge directed that Dr. Milton H. Cohen, jail physician, keep a careful watch over Young. In the event that life in the jail, where there is little or no provision for a restricted diet such as Young requires, shows that his life is in danger, a parole may be considered.

In Fatal Crash
On October 13, 1949, Young was the driver of an automobile that crashed into a light standard in Hanover's square. One of the passengers, Addison Weller, Hanover, formerly of Gettysburg, was killed, and it was on his death that the involuntary manslaughter charge was lodged.

Young was seriously injured, as was Grover Eline, Hanover. A fourth occupant of the car, Leroy Palmer, was not seriously hurt. After Young's conviction a motion for a new trial was filed. This was withdrawn February 13 and Young was directed to appear for sentence the following week. III-

McSherrystown Doubles Quota For Red Cross; Triples '50 Total

Tripling its 1950 donations and more than doubling its assigned quota, the McSherrystown district on Monday afternoon became the first to file a final and complete report with the Adams county Red Cross chapter office here in the current fund drive.

The McSherrystown district workers led by the Rev. Fr. William R. Lyons as district chairman collected \$617.87. The assigned quota was \$450 and last year's total from the same district was \$301.

Father Lyons set that record with the help of six co-chairmen and 59 workers. Mrs. Paul Trostle was sub-chairman for McSherrystown borough where 32 workers helped gather \$507.50. In Centennial Miss Mary Smith was co-chairman and led four workers in gathering \$63.75. The Irishtown co-chairman was Miss Agnes Long whose six workers gathered \$77. In Brushtown, Mrs. Henry Conner led six workers who collected \$99. At Conewago, Miss Mary Jo Adams, was co-chairman for four workers who brought in

\$36.85 and Midway's seven collectors were headed by Mrs. Henry Wolf, reporting \$126.77. Several other districts in the county are nearly finished with their work and more reports are being received constantly at the Red Cross headquarters on Baltimore street. The office will be open this evening from 7 to 9 o'clock for the convenience of collectors and chairmen who wish to make reports.

The March meeting of the board of directors of the Red Cross chapter will be held this evening at 7:30 o'clock in the meeting room in the court house basement.

Campaign Chairman Harry D. Ridinger today urged any county residents not solicited by individual collectors—particularly those in the rural sections—to bring or send their contributions to the Red Cross office on Baltimore street. "A \$1 bill in an envelope addressed to the Red Cross on Baltimore street will be greatly appreciated and will help reach our minimum goal of \$14,000," Mr. Ridinger said.

Here And There News Collected At Random

"One score and six years ago our fathers brought forth upon this nation a new tax, conceived in desperation and dedicated to the proposition that all men are free game."

"We are now engaged in a great mass of calculations, testing whether this taxpayer or any taxpayer so confused and so impoverished can long endure. We are met on Form 1040. We have come to dedicate a large portion of our income to a final resting place with those men who here spend their lives that they may spend our money."

"It is altogether anguish and torture that we should do this, but in the legal sense we cannot evade, we cannot cheat, we cannot underestimate this tax. The collectors, clever and sly, who compute here, have gone far beyond our poor power to add and subtract. Our creditors will little nor long remember what we pay here, but the Bureau of Internal Revenue can never forget what we report here. It is rather for us to be dedicated to the great task remaining before us—that from these vanished dollars we take increased devotion to the few remaining and that we here highly resolve that next year will not find us in a higher income bracket."

It's hard to pull a fellow's leg when he has both feet on the ground . . . The Mayville, North Dakota Tribune recently said editorially: "We have grown into a self-centered nation of people, each separate section demanding the maximum of benefits from a munificent government, caring little whether others are treated likewise. As a result the national cost of living has grown to such proportions that our original dollar has been cut to less than half its former value." . . . New York, March 20 (AP)—Former Mayor William O'Dwyer told Senate investigators today there is a growing "national empire" of crime, and urged big-scale government appropriations to stop it.

O'Dwyer, now U.S. Ambassador to Mexico, testified that crime in America "will be widespread" until "we get an appropriation of \$25,000,000 to \$50,000,000 for a continuing investigation of it."

"There is a national crime empire growing," he said, "and it will get stronger if it isn't stopped."

EXPERT SCORES FIREARMS BILL IN TALK MONDAY

A bill before the legislature providing for registration of all firearms and the making of ballistics tests on guns before hunting licenses are issued was attacked Monday evening by Philip B. Sharpe, Fairfield R. D., ballistics expert.

Speaking before the local Rotary club at its regular meeting in the YWCA, Sharpe declared that the bill not only was unworkable, but that "it is far too dangerous as well as purposeless."

European countries proved the danger of registration of firearms, Sharpe said. "We can profit from their experience. There, all firearms were registered. When Communists, or Nazi forces, took over, their first step was to seize the records at the town halls. Those records listed all firearms in the communities. It was a work of but a day or two for the new ruling clique to gather all firearms, thus halting any potential armed opposition."

"It is obvious that if the United States ever falls into Communism, it will come from a coup by the organized cells of communism in the United States. What better guarantee?"

FIRE POLICE OF COUNTY BRIEFED ON LAW, DUTIES

Provisions of the Pennsylvania Motor Code as they apply to the operation of fire apparatus and the regulation of traffic at a fire or when fire trucks are responding to a call, were explained to fire police of Gettysburg, Bonneville and Barlow Monday night by Sgt. Joseph E. Temple, officer in charge of the Gettysburg substation of the state police. The meeting was held in the fire engine house.

Burgess William G. Weaver, president of the Gettysburg fire company, opened the session and introduced the speaker. There were 17 members of the Gettysburg fire police present, in addition to fire police from the other two companies.

Briefs Fire Police

Sgt. Temple also explained the powers granted fire police, briefed them on their duties and responsibilities at both city and rural fires, and explained how information should be obtained and charges filed when necessary.

The Gettysburg fire police organization was recently expanded by the addition and swearing in of several new members. Charles W. Culp, Jr., is chief.

The renewed interest in fire police and their duties stems from a fire which destroyed a large barn on the C. C. Knox farm, near Knoxlin, on February 11, at which Sgt. Temple characterized the traffic snarl the worst he had ever seen in more than 20 years as a state policeman. Sgt. Temple has since spoken at several fire company meetings on better regulation of traffic at fires.

Tokyo, March 20 (AP)—United Nations troops battling northeast of Hongchon on the central Korean front today ran into "very stiff" resistance.

Red troops fighting from well dug in hill positions hurled back an American battalion after a day-long fight.

In Tokyo, General MacArthur ordered a news blackout on the distance to a certain line on the Korean peninsula.

(Correspondents were not allowed to say specifically what this line is, but it obviously refers to the politically important parallel 38.)

17 Miles From Line

It is one of the most rigid news restrictions placed on correspondents since the war began.

At latest reports, sent before the ban, the Allies were reported less than 17 miles from the border to Red Korea.

In the action northeast of Hongchon, Allied air and artillery attack failed to knock out the Communists. The Reds fought back.

Elsewhere on the central front troops advanced against increasing enemy resistance.

PROBERS CALL ALLEGED KILLER

New York, March 20 (AP) — Big, rugged-faced Albert Anastasia, reputed executioner for the Murder, Inc., mob of a decade ago, sought in vain today to be excused from the Senate crime hearings.

He asked that he not be required to appear because of sore eyes. However, the committee directed that he be on hand at 2 p.m.

Anastasia, named by former Mayor William O'Dwyer as the commander of "underworld troops" of the murder-for-hire gang, showed up wearing smoked glasses, and with swollen eyes. He said he had conjunctivitis, an eye ailment.

"I'd have been glad to testify if they called me before," said Anastasia, who once escaped the death house on an appeal. "I've been here four days now. Why didn't they call me before? Now I'm a sick man."

He said he would go to his doctor for treatment before the afternoon session.

To Start Work On Berks Ore Deposit

New York, March 20 (AP)—Development of an ore deposit in the vicinity of Morgantown in Berks county, Pa., will be started soon by the Bethlehem Steel company.

President A. B. Homer of the steel company said yesterday the deposit lies a few miles south of Reading in a region where iron ore has been mined for years.

"The deposit lies at a depth of 1,500 to 3,000 feet below the surface," Homer said. "The ore is of the magnetic type and can be concentrated into a product with an iron content of from 60 to 70 per cent, making it suitable for use in either blast furnaces or open hearth furnaces."

Bethlehem's program calls for the sinking of two shafts in the near future. Sinking of the shafts through solid rock is the major phase of the development according to Homer. The shafts and the beneficiation plant providing for concentrating and pelletizing of the ore are expected to be completed so that shipment can start within two to three years.

small arms fire from Chinese rear guards. Allied officers said they still believe the city will fall without a fight. Chuncheon was once the Chinese headquarters in South Korea. It is eight miles south of the old boundary between north and south Korea.

Clear Seoul Mines
In Seoul itself mines were being cleared from the streets and road ways while the rice rations were doled out to long lines of civilians.

On the west central front ROK (Republic of Korea) soldiers led the Allied advance. AP Correspondent William C. Barnard said the South Koreans made the deepest penetration of Communist lines.

Twelve B-29 superforts Tuesday pounded Hamhung on North Korea's east coast. Four other superforts hit a bridge near Kowon, south of Hamhung.

Take Power Stations
Censorship was lifted on the capture of the Chungbyong reservoir and power station 15 miles north-east of Seoul. They were captured intact three days ago. United Nations troops, the Eighth Army said, have advanced beyond that point.

Moderate rear-guard action was reported during the day. Chinese and North Korean Communists were reported at three widely-separated points; east of Uijongbu, which is 12 miles north of Seoul; northeast of Hamgye on the central front, and north of Allied-held Kangnung on the east coast.

Place Road Blocks
The Reds have thrown up road blocks in some places to delay the U. N. advance.

From the central front AP Correspondent Tom Bradshaw reported evidence the Chinese were only trying to slow down the U. N. advance until they can complete their withdrawal north of 38. He said the main resistance was met Monday on a road running northeast of Hongchon.

COLUMBIA WILL MEET ILLINOIS IN NCCA FIGHT

By TED MEIER
New York, March 20 (AP)—College basketball's No. One 1951 tournament—the NCAA—opens tonight with Kentucky, rated the top five in the country, and Columbia, the nation's only unbeaten team, in the spotlight.

Kentucky, champion of the Southeastern Conference, meets Louisville at Raleigh, N. C. Columbia, the Ivy league titleholder, is paired against Illinois, the Big Ten champion, at Madison Square Garden.

The complete schedule:
At Raleigh:
7:30 p.m.—N. C. State (28-5) vs Villanova (24-5).
9:45 p.m.—Kentucky (28-2) vs Louisville (19-6).

At New York:
7:45 p.m.—St. John's (24-4) vs Connecticut (22-3).
10 p.m.—Columbia (22-0) vs Illinois (19-4).

Semi Finals Thursday
The four winners will meet in the eastern semi-finals in the garden Thursday. The winners then will meet Saturday for the eastern title and the right to meet the western winner for the grand championship at Minneapolis on March 27.

The western competition opens tomorrow at Kansas City with Brigham Young, winner of the N.I.T. here Saturday, meeting San Jose State and Kansas State, the Big Seven titlist, tangling with Arizona in the curtain raiser. On Thursday at Kansas City, Oklahoma A&M meets Montana State and Texas A&M encounters Washington.

Kentucky, trounced last year by CCNY's grand slam champions, Villanova, St. John's and Illinois were the early favorites in tonight's games.

A sellout crowd of 12,400 was assured at Raleigh with more than 16,000 expected at the garden where interest in the game again is on the upgrade after a slump because of the recent fix revelations.

Columbia Unbeaten
Interest centered particularly on how Columbia, unbeaten in 22 regular season games and boasting a winning streak of 31 over a two-year span, would fare against Illinois.

The Ivy league champions, despite the loss of Bob Sullivan, the sixth man on the squad because of scholastic difficulties, figure to make it close. Considering what seems to be a big ten jinx in the tourney, the Lions may take it all. Illinois was beaten in its last game by Kansas State.

"They're a much bigger team than we are and seem to have speed when they fast-break," explained Lou Rossini, Columbia coach. "However, we expect to have a high-scoring game and it should be close."

Sports Roundup

By HUGH FULLERTON, JR.
New York, March 20 (AP)—One thing which this Dept. can't quite understand is why college athletic leaders, who shudder visibly at the dangers of uncontrolled post-season football, are so calm about the same dangers in basketball. . . . Even when it tossed out the sanity code, The NCAA retained the "principle governing competition in post-season and non-collegiate sponsored contests." . . . That means bowls. But what's the real difference between a football bowl and a basketball tournament? . . . You have a winning colorful team to get into either and the sponsors, even though they're college, are in hot competition for the good ones. . . . The NAIB recently recognized that by demanding that teams commit themselves on tournament play before the season starts. . . . Of course, the NCAA is in the promotion business itself and this year has come up with the best team. . . . Maybe that's enough control, but we're still wondering.

CHAINED TO THE LINKS

Harold Stockbridge, the Rice Institute baseball coach, figures he has the first holdout in collegiate records. . . . Rex Proctor, a clouting outfielder who earned his baseball letter for two seasons and looked like an even better prospect after a summer with the Columbus, Texas, semi-pro Red Birds, refused to report this spring. . . . Rex also plays football in the fall and decided he wanted a fling at golf and his third sports letter. . . . So for two weeks, Proctor pounded the links and Stockbridge pounded Rex's ears with arguments. . . . Like most holdouts, Rex finally gave in.

ONE-MINUTE SPORTS PAGE

Los Angeles is starting a heavy campaign to build a sports arena large enough to handle big-time baseball. A \$25,000,000 bond issue to cover the project is on the ballot. . . . Branch Rickey loses about five overcoats a year. Or does he trade them for left-handed pitchers? . . . Pro basketball may have trouble landing Notre Dame's Dan Bagley, Gale MacArthur of Oklahoma Aggies, Don Sunderlage of Illinois and a few other midwestern stars who are showing more interest in AAU teams.

Adams County Field Day Set For May 12 At Biglerville

Revival of the Adams County Scholastic Field Day was definitely established at the regular spring dinner-meeting of the Adams County Scholastic Athletic league which was held Monday evening at the Altland hotel, Abbottstown.

This year's event will be held on the Biglerville high school athletic field Saturday afternoon, May 12. Boys and girls will take part.

Two committees have been appointed for the affair. The committee on arrangements includes Bruce Sheets, Biglerville; George Inskip, Biglerville; Doris Stierly, Biglerville; Mildred Miller, East Berlin, and Bud Ecker, Bolling Springs. Those named to the awards and publicity committee were Raymond Heckman, Bolling Springs; Hobart Benchoff, Biglerville, and Richard Snyder, New Oxford.

The basketball schedule for next year was adopted and will reverse the home and away games of this year on corresponding dates.

More Girls' Games
An amendment to the schedule was decided upon whereby the number of girls' games will be doubled. Beginning next season the girls will play league games Tuesday afternoons and also as preliminary games to the boys' tilts on Friday nights. On Tuesday evenings the jayvee boys will continue to play preliminary contests to varsity games.

Glenn Kemper, of the trophy committee, announced that the basketball trophies have not yet arrived. East Berlin won the boys' title and York Springs the girls' crown. The Biglerville jayvee boys were recognized as champions of that group although no award is made in that division.

Charles Taylor, New Oxford, president of the league, presided at the meeting with all schools represented with the exception of Littlestown. Edgar M. Glenn and Harry Miller, Fairfield, "sat in" on the meeting.

Training Camp Briefs

Clearwater, Fla., March 20 (AP)—The Philadelphia Phillies continue their exhibition series here today with a game against the Kansas City Blues of the American association.

The Blues are the only minor league opponents the Phils will face in their 37-game spring training schedule. Kansas City is a triple A farm club of the New York Yanks.

Yesterday the National league champs took their second overtime decision of the spring by edging the St. Louis Cardinals 8-7 in ten innings. Ken Heintzelman pitched two-hit ball for the last four innings to receive credit for the win.

West Palm Beach, Fla., March 20 (AP)—The Philadelphia Athletics face former teammate Bill McCahan in today's exhibition baseball game against the Brooklyn Dodgers.

McCahan, on the comeback trail, hurled a no-hit game for the Athletics against the Senators in 1947. He is scheduled to take over the Dodgers' hurling duties after Ralph Branca has his turn on the mound.

For the A's Manager Jimmy Dykes has nominated Bobby Shantz and Carl Schieb to take care of the pitching.

Los Angeles, March 20 (AP)—Bob Peller has another exhibition defeat on his record today, but the Cleveland Indians' ace hurler didn't take it too seriously.

Bob gave up three hits for two runs in his first two innings yesterday as the Pittsburgh Pirates won, 4-2. But he finished by blanking all comers in third, fourth and fifth.

Rookie righthander Gerald Fahr served the Pirates the deciding pitches. Ralph Kiner belted him for a homer in the sixth and John Merson stepped another four-bagger in the eighth.

Until yesterday, the Indians had averaged nine runs per game in late exhibitions.

Los Angeles, March 20 (AP)—Mickey Mantle, the rookie 19-year-old from Commerce, Okla., has enthused veteran and rookie alike in the New York training camp. The switch hitting and speed of the Yankee youngster has everybody in camp talking.

On Saturday, Mickey socked a mighty homer that carried approximately 420 feet. Last night in the Yanks' 6-3 loss to Hollywood of the Pacific Coast league, he got a single in his only time at bat to boost his average to .371-12 for 21.

St. Petersburg, Fla., March 20 (AP)—Larry Jansen appears to be as effective a pitcher this year as he was a year ago for the New York Giants.

He worked five scoreless innings against the Boston Red Sox yesterday in the Giant's 2 to 1 defeat and yielded only one hit. Altogether he has pitched a total of 11 innings to date and allowed only one run.

Vero Beach, Fla., March 20 (AP)—Duke Snider is betting the ball hand for the Brooklyn Dodgers. The Brock outfielder got three in four at bats yesterday as the Dodgers whipped the Athletics, 5-1. This made his average .478 on 11 hits in eight games.

SEVEN QUINTS IN DOG FIGHT FOR PIAA TITLE

By BEN FRENCH
Harrisburg, March 20 (AP)—The PIAA Class A race for Pennsylvania's top schoolboy cage prize today turned into a seven-way dog fight.

Those remaining in the running are Allentown, Chambersburg, Farrell, Johnstown, Sharpville, Swoyersville and Westinghouse. Anyone of the seven has the power to go all the way to the commonwealth championship.

Swoyersville, the Class B team that almost captured the 1950 Class A title, became an eastern semi-finalist last night by drubbing Bloomsburg (District 4), 73-50, at Lewisburg.

Once again, it was the Sailors' six-foot, five-inch center—Joe Holup—who led the way with 40 points.

His 40 points is believed to set a new all-time PIAA record for points scored by an individual in a playoff game. The previous unofficial record was set by Mickey Felock of McAdoo high on March 9, 1945, when McAdoo beat Fell Township, 72-37.

The PIAA does not keep official records on individual standings.

Trojans Face Sailors
Once-beaten Chambersburg (District 3) tests the Sailors from District 2 tomorrow night in the lone eastern semi-final at Hershey.

Allentown (District 11) already holds a position in the eastern finals scheduled for March 28 at Hershey. Sharpville's Blue Raiders, District 10 champion, opposed the potent Pittsburgh Westinghouse Bulldogs (District 8) at the Pitt Pavilion.

Farrell's Steelers, out of the huge WPIAL, meet Johnstown's District 6 Trojans at the War Memorial Arena in Johnstown.

All of the eight remaining contestants in Class B see action tonight in regional semi-finals. Tompkins winners meet in the eastern and western finals on March 27 with the two survivors opposing each other at Pitt Pavilion on March 30 for the state title.

Tonight's card sends Kutztown (3) against Hellertown (11) at Allentown and Clarks Summit (12) against McAdoo (2) at Hazleton in

the east. Unbeaten Cresson (6) is matched against Avalon (7) at Pitt Pavilion and unbeaten Mercer (10) against Slippery Rock (9) at Farrell.

Set C Title Games
Last night's action also crowned the western Class C champion when Fredonia (10) defeated Southmont (6) 39-38. Fredonia will meet Mount Joy (3), the eastern champion, Thursday night at Lebanon in the first Class C title game ever held.

The Class C state championship tilt was announced late yesterday by Edmund Wicht, PIAA executive director. He said Mount Joy and District 3 officials had requested the game and Fredonia had agreed to it. Class C competition has ended in the regional finals for the four years the class has been existence.

Kutztown, Mercer and McAdoo are favored tonight in their Class B regional semi-final contests with the Cresson-Avalon tilt rated a toss-up. Cresson has marched unbeaten all season but Avalon is the toughest quintet the Cambria countians have faced. Avalon defeated Irwin, the defending western champion, Friday night by a 42-39 score to take the WPIAL Class B crown.

Kutztown's defending Class B state champions are given a healthy edge over Hellertown, untested in inter-district competition since winning the District 11 title last Friday from Ashland, 45-42. Kutztown's Cougars eliminated Darby of District 1 last Friday, 48-43.

McAdoo, which won the first Class B state title back in 1945, also is untested in inter-district competition but was impressive in defeating Ashley, 71-61, and Luzerne, 42-35, to snatch District 2 honors. Clarks Summit, however, was strong enough to eliminate Troy's Roosevelt Trail league titlists from District 4 last Friday night, 47-39.

Unbeaten Mercer has bowled over all opponents in the northwest and the Mustangs are expected to throw Slippery Rock's District 9 representatives in the first inter-district game for each team. Mercer eliminated Lawrence Park, 42-32, to win District 10 honors last week. Slippery Rock pushed past Sykesville, 51-32, to win the title.

Danville, Pa., March 20 (AP)—Gov. John S. Fine's administration "is going to be the worst the state has seen since the start of the 20th century," Democrat Richardson Dilworth asserts.

The Philadelphia city treasurer told the Montour County Democratic club at a St. Patrick's Day dinner Saturday night that despite a "war industry boom, I believe the state will end in the red."

Dilworth, Fine's opponent in last November's election, said he had called in his campaign for a program of \$150,000,000 in new taxes and Fine "said elect me and we'll have not one cent increase."

NOW THE 1951 Lincoln gets official recognition for the proven economy long known to owners of Lincoln motor cars. In the grueling 840-mile Mobilgas Economy Run—over roads ranging from icy mountain passes to the blazing heat of Death Valley—the great new Lincoln with optional overdrive rolled up records for economy unmatched by any other car entered.

Throughout the rugged demands of this severe competitive test of American motor cars, conducted by the AAA, the 154-horsepower Lincoln "Invincible Eight" engine led all others in this extreme

test—not only for performance, but for fuel and oil economy, too!

In winning the Grand Canyon Sweepstakes award, the Lincoln set a new Economy Run mark of 66.434 ton-miles per gallon.

If you are one of those who have thought of Lincoln only as a style and luxury leader in the fine car field, this record commends this great car to you doubly now. Yes, the 1951 Lincoln—from any viewpoint—represents the finest automotive investment you can make for 1951 . . . and for all the years ahead.

Phone Company Changes Hands:
At a meeting of the stock holders of the Adams County Telephone company on Monday afternoon (March 25), 277 shares out of 400 shares of stock of the company were sold to T. J. O'Neil, of Hanover, at \$86 a share, par value \$25. It is understood that the purchase was made for S. L. Johns, of McSherrytown, and Harry L. Gitt, of Hanover. They are the same persons who purchased the stock of the Hanover Telephone company several months ago.

Dr. Daniel Eberly, of Hanover, presided at the meeting of the stockholders and John B. McPherson, Esq., acted as secretary.

The Hanover gentlemen said that they had come prepared to pay cash for the stock. Several of the larger stock holders accepted the terms and parted with their shares at \$36, and their action was immediately followed by most of the stock holders. It is said that the remaining 123 shares will be taken at the same figure.

There were in all, fifty-two stockholders owning the 400 shares of the company before Tuesday. The largest share holders were: J. Emory Bair, 20; W. H. Benner, 10; J. L. Butt, Esq., 10; W. H. Hafer, 12; W. A. Himes, 14; George S. Kump, 10; P. A. Miller, 15; W. B. McIlhenny, 10; John B. McPherson, 12; Wm. McSherry, Esq., 35; Dr. H. B. Nixon, 20; S. S. Neely, Esq., 35; Hon. John A. Swope, 10; George E. Stock, 14; E. P. Wisotzky, 10.

Within the past few weeks representatives of a telephone company, supposed to be the Pennsylvania, have been buying poles in the northern part of the county, to be delivered along the Shippensburg road. It is understood that the line will be built through the Narrows and from there direct to York, through East Berlin, skipping Hanover and Gettysburg. A franchise was granted this company by the Arendtsville Town Council several weeks ago, but it is now stated that the lines will not be run through Arendtsville, but will take the road leading from Arendt's Mill to Biglerville.

Good Music Rendered: Last Friday evening, an excellent musical program was rendered in the rooms of Mr. Harry Himes, in the Warner building, Baltimore and Middle streets, for the benefit of the Methodist church. Miss Katie Otto was the bridesmaid and Mr. Ervin Diehl was groomsmen. The two little flower girls were Esther and Miriam Diehl. The ceremony was performed by

FLOCKS OF FRIENDS

I have visited many an estate where the owner has showed to me his prized flock of cattle, high-blooded horses, or sheep, and I can understand such pride of ownership, but such an ownership is so far beneath the ownership of a flock of friends! I prefer to talk with those who exult over the possession of the latter.

A flock of friends — what an asset! At no cost, too. Just the ability to invite them to one, and to hold them through one's love and interest in them. A friend of mine recently died. I miss him. He used to entertain a group of his friends from time to time at his home, and always a most interesting selection they were — worthwhile folks who were contributors to the best in life. Every time I think of this friend I think of the flock of friends he had, and how he loved to have them with him. He once wrote a long article about them and gave the reason for liking each one.

When Will Rogers went out of me I was at my small island retreat in Nova Scotia. There was a silent sadness among the simplest to the greatest as the news came over the wire and was elaborated upon in the newspapers the next day. He was the friend of all — people who had never met him, but who loved him just the same. His flock of friends was world wide.

As I glance at the well-filled shelves that hold the books in my library, and at those which are piled upon my writing desk, on tables, stands — and everywhere, it seems — I think of these silent books as a flock of friends that no wealth could ever replace. Their intrinsic value cannot for a moment be compared to their mental and spiritual value. Books are as living friends as those who walk our streets, or who visit us at our homes, or who dine with us in enjoyable contact.

Nothing in this world appeases loneliness as does a flock of friends! You can select them at random, write to one, dine with one, visit one, or take your problems to one. There is always at least one who will understand, inspire, and give you the lift you may need at the time. Fortify yourself with a flock of friends!

Tomorrow Mr. Adams will talk on the subject: "A Good Employee."

CHANCE AND ROMANCE

Things happen by the strangest chance.

A boy and maiden meet,
And in the records of romance
They start another sheet.

Two families learn what's going on.
One mother's heard to say:
Her daughter May seems fond of John;
The other, "John likes May."

The parents ne'er before had met;
But ere the year is through
Since first the wedding date was set,
They'll be united, too.

Next, when those parents, pair by pair,
Their children's child first see,
For that sweet babe at which they stare
Grandparents they will be.

When chance and love have thus combined
Two families to unite,
How fortunate are they who find
Such rapture and delight.

STATE FACES BIG TAX INCREASE IN RECORD BUDGET

Harrisburg, March 20 (AP)—Pennsylvania taxpayers face the prospect of a \$163,487,000 tax increase on the basis of a new, record-breaking budget of \$1,220,150,502 for the next two years.

Gov. John S. Pine called in top legislative leaders for an eleventh hour conference to complete details of his tax program for presentation to the Legislature tomorrow.

The nature of his specific tax recommendations was omitted from the bulky budget message submitted to the Assembly last night. But an administration source said consideration is being given to a flat income tax of a half per cent.

Other tax alternates under scrutiny are a one per cent general sales tax, a gross business receipts levy or an overall boost in present imposts such as cigaret, corporation, liquor and beer taxes.

The budget — it covers projected state expenses from June 1, 1951, through May 31, 1953 — is \$1,240,843 over the previous all-time high of \$1,218,909,000 of the present biennium now approaching an end. The \$1,220,150,502 figure, said Pine, represents "an irreducible minimum."

Mixed reaction that hewed strictly to party lines greeted introduction of the budget. Republicans praised it for what they termed "a courageous outlook." Democrats lambasted it as "a record-breaking bane."

Soft Drink Tax Gone
The budget makes no provision for continuing the cent a bottle soft drinks tax in effect since 1947 as an emergency revenue-raiser. Following through on this campaign pledge will mean the end of \$29,000,000 in tax collections from that source.

At the same time, Pine called a halt in new building construction by the state itself, although the borrow-and-build general state authority will be able to go ahead with essential projects. He said the GSA's present \$175,000,000 borrowing limit should be increased.

Speaking generally of the budget, Pine said: "Our chief aim has been to keep the budget for the operating costs of the state government at its lowest possible level and at the same time provide adequately for civil defense, for health and education."

To Cut Relief Costs

The governor said his administration is confronted with \$112,000,000 in new costs that include: \$60,000,000 to start paying off the \$440,000,000 veterans bonus; \$42,000,000 for increased teachers' salaries and other school needs under present law, plus another \$20,000,000 which the Legislature may want to earmark for further teacher pay boosts or school aid; \$10,000,000 for rentals of the GSA-constructed buildings; \$5,000,000 for increased costs of operating departments and bureaus, and \$5,000,000 in miscellaneous items.

One of the big reductions in the new budget is \$60,000,000 for public assistance. The commonwealth proposes to spend \$136,000,000 for relief in the next two years compared to

Blaze Covers Wide Philadelphia Area

Philadelphia, March 20 (AP)—A general alarm fire in a heavily congested part of North Philadelphia destroyed a rubber plant, a laundry supply house, wrecked two apartment buildings and drove 60 families from their homes.

A dozen firemen suffered minor burns, cuts and bruises. No other injuries were reported.

The fire started yesterday behind the rubber plant, roared through two apartments on Westmoreland street and into the laundry at the rear.

Smoke spread over the area like a dense fog, flames rose 75 to 100 feet, the intense heat melted an extension ladder, telephone and power poles became blazing torches.

Firemen said the rubber plant contained inflammable chemicals but the cause of the fire was undetermined.

EDITOR MAKES HIS OWN RAIN

Washington, March 20 (AP)—A South Dakota editor told a Senate subcommittee yesterday he is sure you can whip up a rainstorm by artificial means because he did it himself.

E. L. "Paddy" Ingvalson, managing editor of the Rapid City Daily Journal, told the senators he did it with some dry ice tossed into a fleecy cloud from the window of a high-flying airplane.

"Paddy" says he and the plane's pilot, Harry Marshall, used an empty cottage cheese container to dish out the ice in a flight suggested by Senator Case (R-S.D.).

Both Are Convinced

Ingvalson and Marshall testified before a subcommittee holding hearings on bills that would put the government in the business of sponsoring and controlling experiments to make rain by "seeding" clouds with dry ice and other compounds.

Both the South Dakotans said they are convinced dry ice can nudge clouds into turning on the rain. There is considerable disagreement on this theory among scientists.

Martial Law In Effect In Tehran

Tehran, Iran, March 20 (AP)—Martial law was proclaimed in Tehran today.

A proclamation was broadcast by the state radio declaring that "gangster elements have been trying to upset the security of Tehran." Shah Mohammed Reza Pahlavi took the drastic step in a move to suppress the terror which has brought the assassination of American-supported Premier Ali Razmara March 7 and the shooting of the deputy chancellor of Tehran yesterday, Dr. Abdul Zanganeh, yesterday.

The new military governor-general, Abdul Hejazi, made an appeal by radio to all groups in the capital to maintain peace. The city was quiet, although unpaid government workers demonstrated in front of the Parliament building.

Aged Brothers Die Within Few Minutes

El Monte, Calif., March 20 (AP)—Two elderly brothers who were inseparable all their lives, died within

minutes of each other—and of the same cause, a heart attack.
When Ernest Edward Andrew, 76, retired book dealer, succumbed yesterday, Arthur Gibson Andrew, 78, ran for aid. Suddenly Arthur stumbled and fell dead.

CONGRESS GETS VARIED ADVICE ON WHAT TO DO

By ARTHUR EDSON
(For Hal Boyle)

Washington, March 20 (AP) — One nice thing about Congress—it never lacks for advice.

Congressmen get suggestions from their constituents, from editorial writers, from commentators, and—this is a gushing spring that never runs dry—from each other.

Still, if any advice shortages should crop up, there always are the state legislatures.

They like to pass what are called memorials, which are simply resolutions telling Congress how it should do its job.

Legislatures keep busier than you might think at this sort of thing.

In 1949, 297 memorials were sent in by state legislatures. They dealt with everything.

Oklahoma wanted the Hon. Henry Sixkiller Knight named principal chief of the Cherokee nation.

Iowa wanted egg prices supported. California asked for a regulation on speedboats using Lake Tahoe.

Alabama decided that what this nation needed was a national Farmers' Day.

Alaska wanted to abolish fish traps.

Memorials Keep Coming

Business fell off to about half in 1950, probably because this was the tailend of the 81st Congress. The legislatures already had made their pitch for many of the things they wanted.

But the memorial business had not failed altogether.

Idaho decided something should be done about weed control.

Mississippi wanted Secretary of State Acheson censured for his stand on Alger Hiss.

California's memorials will give some hint of the wide range of subjects covered.

Its memorials dealt with an air force academy for California, homeless Greek children, the Central Arizona Project, Italian lemons, a national pension program, taxes on theatrical tickets, tidelands, the distribution of Veterans' Administration offices, etc., etc.

Massachusetts may hold the memorial-passing record. In 1949, it passed 26 memorials.

When a memorial arrives here, it's sent to the proper committee. What happens then depends on how energetically the sponsors push the legislation the memorials ask for.

When they come in such numbers, though, it's obvious that most memorials—like most bills—are doomed to die an uneventful death.

Yet it wouldn't be fair to say that this bit of advice, or any other advice given Congress, is completely ignored.

Had It In 1775, Too

In 1949, for instance, many state legislatures passed memorials saying they were opposed to a federal tax on oleomargarine. What effect, if any, these memorials had, no one can say. Many groups were saying the same thing. But the tax was repealed.

While I was looking up memorials in the "Congressional Journal," Raymond P. Johnson, a Journal clerk, brought around the minutes of the Continental Congress.

"It's interesting to note," he said, "that we still do things pretty much the same way as they did then."

Sure enough, we do. In 1775, New Jersey sent a note to Congress. Stripped of its wherelines and fancy language, the memorial said:

Let's quit horsing around and whip the British.

I don't know whether this had any effect, either. Anyway, we won the war.

Korean War Dead Start Home

Honor guard (left to right, backs to camera), BM 1/c A. O. Lawrence, Stockton, Calif.; Air Force M/Sgt. Francis McMullen, Cumberland, Ia.; (left to right, facing camera) Army Sgt. R. E. Gilyard, Port Chester, N. Y., and Marine Sgt. F. Thurmond, Dilley, Tex. (AP Wirephoto via radio from Tokyo)

Of intellect to show.
But none the less most roosters have
Enough good sense to crow.

The busy little bees, they buzz;
The watch dog barks, the ganders quack.
The doves and pigeons coo,
The peacock spreads his tail and squawks.

Pigs squeal and robins sing.
Even serpents know enough to hiss
Before they sting.

But man, the greatest master-piece
That nature could devise,
Will often stop and hesitate
Before he'll advertise.

In contrast to recent years,
the 1951 Easter cards will usher
in Springtime customs—instead
of starting their colorful pro-
cession after the season's grand
opening.

The reason? Simply that
Easter Sunday falls on March
25 this year: the earliest it's
arrived since 1940. And church
calendars reveal that Easter
won't come this early during the
20th Century again!

Spring, of course begins a few
days earlier on March 21. But
with one trailing the other so
closely, the 1951 Easter greetings
have gotten right into the spirit
of things.

Plan Presentation Programs

Five students were entered from Gettysburg high school, three from Biglerville, two from Littlestown and one from York Springs. The awards will be presented at programs to be arranged by the Legion posts and the schools which the winners attend.

Other business at Monday night's session of the Lentz post included the donation of \$50 toward the entertainment fund at Lebanon Veterans hospital.

Following the reading of a letter from Earl Cooke, Jr., national Legion commander, the local post went on record as favoring Universal Military Training. A letter will be sent by the post to Congressman James F. Lind urging him to use his influence to have the UMT bill passed. All members were urged to write as individuals to Congressman Lind urging passage of the bill.

To Hold Banquet

Plans for a Legion bowling league banquet, to be held April 9 at Mt. Joy church, were announced. Members of the six teams in the league were asked to report at the Legion at 7 o'clock on the evening of April

9 for transportation to the church. Commander Noel Flynn reported receipt of a citation from national Legion headquarters for the local posts Americanism program during the year 1949-1950.

The citation was presented by Commander Flynn to Past Commander Paul B. Fox, under whose administration the citation was won. Past Commander Fox thanked the members for their assistance and activities during his term, noting that it was through the efforts of all that the award was won. He then presented the certificate to the post.

Six men were accepted into membership including Attorney Samuel M. Raffensperger, Arendtsville; Leonard P. Arnold, Biglerville; Burnell W. Wagner, Gettysburg R. 1; Charles D. Weaver, Gettysburg R. 5; George Schriver, Baltimore and John C. Heiser, Gettysburg R. 2.

Paris, March 20 (AP)—Six nations of Western Europe Monday initiated the Schuman plan for pooling most of their coal and steel. The agreement, coming after nine months of negotiations, constituted one of the most ambitious economic proposals made in Europe in this century.

The plan for an international control of West Europe's major resources was initiated Monday at the French Foreign Ministry by technical experts of six nations—France, Italy, Belgium, Luxembourg, The Netherlands and West Germany.

EXPERT SCORES

(Continued from Page 1)

tee could we give such Communists that they would not have to face armed competition than an official list of all firearms available.

The speaker added: "Not only would such a list be dangerous, but the purpose of the law does not make sense. Its proponents argue that the bill would put on file the records of all guns and the markings they make on bullets. Thus if a man is shot the police would merely have to check the markings on the bullet to ascertain who owned the gun that fired the shot.

"There are two things that prevent that idea from being workable. The first is that there is no known classification for markings on bullets. There are at least 1,000,000 rifles in Pennsylvania. The police would have to check the bullet they have against the markings of 1,000,000 bullets to determine which rifle fired the shot. That in itself is an impossible task.

Can Change Markings

"In addition it takes exactly one hour to so change a rifle that the bullets fired from it will have entirely different markings from any bullet fired previously. All gunsmiths know how to make those changes and you can guarantee that criminals know the methods just as well.

"So we would have on file the markings of 1,000,000 bullets and in all likelihood the markings on any bullet used by criminals would not

match any of the markings on the 1,000,000.

"The Duffy bill also provides that all firearms must be registered and ballistics tests made before a hunting license can be issued. Now I know exactly how long it takes to make the test that the bill calls for. It is a matter of four hours' work, if you are sufficiently trained and skilled.

"In the entire state of Pennsylvania there are, at the most, 100 persons who have the training to make the tests. If the state could convince all of them that they should make the tests it would take them, working a 40 hour week, 50 weeks in the year, 20 years to test 1,000,000 rifles. Someone would have to wait a long, long time before he got his hunting license.

The law would serve one purpose. Apparently, it would very effectively wipe out practically all hunting in the state for a time anyway. Only a very few hunters would be able to enjoy hunting this fall, because, comparatively, only a very few of the rifles could be properly tested before hunting season, if the bill

OPEN SUNDAY

March 21 Is Spring! March 25 Is Easter!

Arrival of Early Easter Season Brings Signs of Spring Fever

Reverent or whimsical, the 1951 Easter greetings have one thing in common—they're all in a dither about Spring!

Their seasonal outlook has Biblical precedent, too, for one of this year's Easter cards takes its theme in a verse from the Song of Solomon:

For lo the winter is gone,
The flowers appear on the earth.
The time of the singing
of the birds is come.

While, by way of comparison, there's an excited Easter Rabbit who looks on the wonders of

Spring with wide-eyed appreciation as he exclaims:

HOORAY—It's Easter!
Buds are POPPIN' on the bough . . .
Spring's just around the corner now!

The answer, it seems, is that Easter comes unusually early—March 25—this year. In fact, Easter arrives just four days after the Vernal Equinox, beginning of Spring, on March 21.

Historically, Easter is the Sunday following the first full moon of Springtime—a formula calculated on an ancient lunar cal-

endar dating back to the Old Testament.

Easter card illustrations have captured most of this excitement. Cherubs are pictured sliding over a rainbow; Easter rabbits frolic under the clearest skies of Springtime; while young ladies water their painted gardens or rejoin the annual Easter Parade.

It's the time of year when fashions and flowers are talked about everywhere. Thus outdoor scenes appear more often on the 1951 Easter cards than ever before.

Church attendance, of course, reaches its peak while commemorating the resurrection of Christ. And most Americans, say publishers, prefer an Easter greeting that is illustrated with religious scenes or symbols.

goes through.

"Again, assuming that the 100 ballistics experts would consent to work for \$100 a week, a low figure for men of that skill—it would cost the state more than \$10,000,000 to carry out the tests."

President Dr. Kenneth Smoke presided at the meeting, with the speaker being introduced by Dr. Bruce N. Wolff. Julian Ester urged attendance at the district meeting in York, April 1, 2 and 3. Philip

Jones gave birthday greetings to members whose birthday occurred in the last three months. Fifty attended the session.

CHURCH, RADIO

The Rev. Harvey M. Light, pastor of the West Manheim charge, Hanover, presented a paper on "The Pastor and Radio," at the March meeting of the Gettysburg Classis Ministerium, at the home of Rev. Samuel W. Beck, East King street, Monday afternoon.

The meeting opened with the scripture reading by the host, a retired Evangelical and Reformed minister. The devotions were in charge of Rev. Charles B. Rebert, Littlestown, also a retired Reformed minister. The business session was in charge of the president, Rev. Alton M. Leister, pastor of the Zwingle charge, East Berlin.

Henry L. Mencken
To Leave Hospital

Baltimore, March 20 (AP)—Baltimore's leading man of words, H. L. Mencken, is up and at 'em again today.

To a limited extent, anyway. The 70-year-old critic and authority on the American language is leaving the hospital today for the second time in three years.

Doctors had written him off when he went in last October 12 with a heart attack so severe he was not even expected to regain consciousness. Mencken did the next day.

Four weeks later he was demanding cigars and beer.

"Feeling fine" now says his doctor.

Although Johnston believes the basic remedy is to reduce buying demand through higher taxes and stiffer credit control, he has sent a sheaf of recommendations on price and black market control to Charles E. Wilson, mobilization director.

Some are expected to show up in a presidential message to Congress next month on extension of the mobilization law due to expire June 30.

Because the final decision belongs to President Truman, Johnston has not made his views public. But informed officials said it is "safe to assume" he has requested these changes:
